

AIRCOM

AWS ELECTRIC SUCTION & BLOWER VENTILATOR

The Aircom© AWS is our standard electric driven ventilator. Powerful and solid as it is, it can be used everywhere. On the suction side, a strong grid protects the fan for loose objects. Its ergonomic design makes it ease for use on holes or working with duct hoses. The high static pressure advances high air-movement, and therefore also suitable for big areas.

THE AWS 300 S

Available in 110 & 220 Volt single phase, 50 & 60 Hz suitable, and 380 Volt 50 Hz - 440 Volt 60 Hz and 3 x 220 V 50/60 Hz triple phase.

Aircom© has also explosion proof designs for hazardous areas and special designs on command. Contact your supplier for the options.

TYPE	DIA in mm	Capacity M ³ / Hr	1 Ph 50/60 Hz	3 Ph 50/60 Hz	RPM	Exp. kW	Weight 1ph/3ph
AWS 200 SA	200 mm	1000 M ³ /Hr	YES	YES	3000 rpm	0.06	9 / 10 KG
