

AIRCOM

CUSTOM VENTILATORS ON DEMAND

With the backing up of our own workshop, a high professional suppliers network and sophisticated computer programs, we can make ventilators for special requirements, special applications or size-to-fit solutions. Air driven or electric driven, 110 Volt or 220 volt single phase, 380 volt 50 HZ, 440 Volt 60 Hz or 3x220 Volt triple phases, we have all the means for your problems.

Quotations of on-demand ventilators are accompanied with detailed information about capacity, pressure, static pressure, noise level, working point results and power diagrams. A professional solution for your problems.

All executions can be made in steel, stainless steel or aluminium, explosion proof ventilators are complete with certificates of switches, impellers, glands etc.

Due production within our own factory, delivery time can be reduced to a minimum. Aircom© is for over 25 years a worldwide exported product, known for its reliability and long lasting way of production.
