

# AIRCOM

## Pneumatic pistonscaler, type AT.

The single, double and triple pistonscalers are ideal for removing scale, rust, paint etc. From tanks, and all metal structures. Pistons are made in steel or tungsten carbide. Optional is non spark or replaceable heads. Liner-size and Pistons are the same at all models, so it's possible to change from one model to the other, which check is very economical. Aircom manufactures pistons and parts in standard and over-sized parts, for all makes of piston scalers.

Type	Bore	Stroke	Blows	Lenght	Weight	Air consumption	Working pressure	Air connect	Minimum hose size
AT-1	28,8 mm	21 mm	4600/min	430 m/m	1,8 kg	160 l/m	5-7 BAR	1/2"BSP	1/2"
AT-2	28,8 mm	21 mm	9200/min	430 m/m	2,4 kg	320 l/m	5-7 BAR	1/2"BSP	1/2"
AT-3	28,8 mm	21 mm	13200/min	430 m/m	3,2 kg	480 l/m	5-7 BAR	1/2"BSP	1/2"
