* = angle model

Collet chucks for die grinders are supplied with the tool.

The RRI-3325L and RRI-3325EL are same. However model RRI-3325EL is supplied with extended spindle (not suitable for wire brushes).

All die grinders are straight models, with exception of type MG-7236B (angle model).
Note: Type MG-7206B is also available in set.
